EXPERIENCE

Software Developer October 2013 – March 2020

Menez Enterprises - Orlando, FL

- Over 4+ years of professional experience in development and deployment of various Object oriented and web - based Enterprise Applications using Java/J2EE technologies frameworks like Spring (Boot, Cloud, MVC, ORM) and working on the complete System Development Life Cycle (SDLC).
- Expertise in Web development technologies like HTML5, React, Angular, XHTML, DHTML, JAVASCRIPT, CSS3, XML and XSL/XSLT.
- Developed product roadmap and participated in product management and business development activities.
- Design and deploy back-end administration tools utilizing technologies such as Bootstrap, Node.js, Angular, MySQL, React, and .NET.
- Collaborate with engineering teams by utilizing Git as part of our version control systems and by writing documentation.

Software Developer Sept 2015 - April 2018

G World Properties – Orlando, FL

- Work with advanced applications development technologies such as React, Node, MongoDB, MySQL, TypeScript, JavaScript, Python, Bootstrap, CSS, and HTML.
- Responsible for creating and maintaining architecture for Restful API using Spring Boot.
- Maintain various marketing websites utilizing WordPress, Drupal as well as the development of static pages.
- Training and development of tools with a pleasing visual design to improve processes while paying attention to detail.
- Turned the vision of the company to real web applications hosted in the cloud.

PROJECTS

- [Inventory System developed utilizing Spring Boot and React for the front end.](https://github.com/menezmethod/inventorysystemreact)
(<https://github.com/menezmethod/inventorysystemreact>)
- [Inventory System created developed using Java and JavaFX](https://github.com/menezmethod/InventorySystem_JavaFX)
(https://github.com/menezmethod/InventorySystem_JavaFX)
- [Multi time-zone Scheduling Application developed using Java and JavaFX](https://github.com/menezmethod/JSScheduleLG_java)
(https://github.com/menezmethod/JSScheduleLG_java)
- [Student Roster developed using C++](https://github.com/menezmethod/StudentRosterLG_CPP)
(https://github.com/menezmethod/StudentRosterLG_CPP)
- [Mobile Semester Scheduling application developed using Java & Android Studio](https://github.com/menezmethod/WGUSchedulerMobile)
(<https://github.com/menezmethod/WGUSchedulerMobile>)
- [Personal website developed with React](http://gimenez.dev)
(<http://gimenez.dev>)

METHODS

- Agile Software Development / Scrum
- SLDC

CERTIFICATIONS

- CIW User Interface Designer
- ITIL® Foundation Certificate in IT Service Management
- CompTIA A+
- CompTIA Project+
